

Quiet. Exact. Independent.

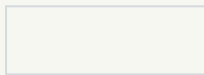

Let the work carry the authority. Typography, proportion and space do the work.

Wordmark

Finlandica Regular 400, all caps, in #2A4A70. Set at 25px with a 1.2 line height and +0.235em tracking: +23.5%, or 5.875px at this size. Keep the font's natural proportions and kerning. No symbol, container, added weight or tagline lockup.

At 390px: 24px with the same tracking. Footer: 18px on desktop, 17px on mobile, both at +0.22em. Preserve the open area around the mark; the desktop header is 142px high.

Mark and accents

Paper is the canvas; ink carries the content. Blue is reserved for the wordmark, links and small accents. Wash marks the Talos section only. Dividers are 1px. No gradients, shadows or additional accent colours.

Typography

Finlandica Regular 400 throughout

Role	Desktop px	Mobile px	Line height ×	Tracking
Hero heading	98	≈57	1.015 / 1.035	−3.7% / −3.3%
Section heading	49	38	1.12	−2.5%
Research title	26	24	1.30	−1.8%
Talos title	91	74	1.00	−4.5%
Body	19	18	1.70	0
Lead paragraph	25	23	1.46	−1.2%
Reading heading	94	65	1.015 / 1.035	−3.7% / −3.3%
Article title	31	27	1.19	−1.8%
Navigation	16	15	1.40	0

Reference viewports: 1440px desktop / 390px mobile. Paired values are desktop / mobile. Tracking is a percentage of font size. The 390px hero is exactly 56.94px; its size is fluid.

Sentence case outside the wordmark. Left-aligned, ragged-right text; no bold display type. Article summaries: 18 / 17px, line height 1.6. Code alone uses a system monospace: 14 / 13px, line height 1.75.

Layout & behaviour

A few strong alignments, with room between ideas.

Grid & rhythm

Centred border-box wrapper: max-width 1344px including padding. Side padding: `clamp(24px, 6.25vw, 96px)`. At 1440px: 1164px content, 138px outer margins.

Hero: 1.3fr 1fr, 88px gap, bottom-aligned. Sections: 0.72fr 1.28fr, 90px gap, top-aligned. Talos uses a full-width wash and the same inner grid. No cards.

Top / bottom	1440px	390px
Hero	78 / 103	41 / 54
Research	74 / 96	46 / 55
Talos	82 / 86	49 / 56
Efficiency	96 / 102	54 / 58
About	76 / 88	46 / 60

Use the measured rhythm, not a forced 8px grid. Body paragraphs generally have a 22px gap; research entries have 47px between them on desktop and 37px on mobile.

The short hero rule is 30 × 2px in blue, with 25px beneath it on desktop. The closing line has 96px below it on desktop, 67px on mobile.

Responsive

At ≤1100px, hero / section gaps become 52 / 58px; section columns become 0.75fr / 1.25fr. At ≤760px, stack both grids and use 30px side gutters. At ≤520px, navigation sits below the wordmark. At ≤430px, gutters are 24px; at ≤359px, 20px.

At 390px, content width is 342px. Keep the content order and three-line hero on narrow phones; no hamburger menu.

Page structure

Home: introduction → language research → Talos → efficiency → independence → closing and footer. Reading is a separate view (`#reading`), never a feed or teaser section on Home. The eight selected articles come first, in the supplied order; archive additions follow.

Reading uses full-row links separated by 1px rules. Desktop columns: 168px metadata / flexible text / 20px arrow, with 47px gaps and 34px top, 37px bottom padding. On mobile, metadata moves above the title; the arrow stays on the right.

Details & voice

Use text links, not prominent filled buttons. Underlines: 1px, offset 0.24em. Hover: blue. Active navigation: blue with an underline offset 7px. Keyboard focus: a 2px blue outline, offset 6px. Keep the skip link and reduced-motion support; no decorative animation.

Write plainly about dates, questions, methods and things built. Let evidence establish distinction. Keep warmth understated. No grand claims, ornamental labels or “our work lives on...” copy. No stock AI imagery, glows or decorative diagrams.
